| ABC Apprenticeship Program

Journeyman Pipefitter License, 2006

Bio - Mr. Gordon joined Green Contracting in 2001 as a laborer. By 2006 he had enrolled and graduated from the Apprenticeship Program as a Pipefitter. Eric used his skills and communication skills to advance quickly and was promoted to Foreman in 2013, and shortly thereafter, to Superintendent. At the time and throughout his tenure in this role, Mr. Gordon was responsible for some of Green's largest and most complicated work. In 2021, he was promoted to his current role as Operations Manager.

Mr. Gordon is now responsible for managing field operations on a company level, overseeing the entire field forces, and scheduling the men, deliveries, and equipment as required for various job sites.

His input on means and methods and constructability are a vital part of our estimation process and that same insight guides daily operations. Eric also contributes heavily to the piping and overall coordination process and directs the workflow between shop and field efforts in a seemingly seamless process.
