Bio – Ms. Riga began her field experience through internships with MEP leaders until she was hired as a full time safety coordinator at Green Contracting where she continues her development in both the private and government sector. Ms. Riga’s focus is on Regulation knowledge and field application.

At Green Contracting, Ms. Riga assists the project management team in developing site-specific safety programs and activities, conducts work area safety audits, monitors and reviews subcontractor activities for safety concerns, reviews safety submittals, including crane/lift plans and attends preconstruction and preparatory meetings with subcontractors. Additionally, Ms. Riga formulates, coordinates and conducts safety orientation and training programs, documents and tracks all safety violations/unsafe conditions, records, monitors and analyzes safety, injury and hazard statistics, conducts project loss, control data/document collection, and trend analysis.
