Submarine Service

**| Bio -** Mr. Schell started his career many years ago as a helper for a boiler distributor. He progressed to manufacturing HVAC equipment for Airflow Company in the special products division. There he performed all elements of air conditioning work including construction, testing, and engineering. He carried his experience to the U.S. Navy Nuclear program and served aboard submarines. At the conclusion of his naval career, he continued to higher education. Mr. Schell entered the power industry, working on a variety of power generation plants as an operator and engineer in both nuclear and fossil fuel generating systems. These experiences lead to his initiation in the start-up and commissioning field. Mr. Schell operated his own consulting firm, SESCO Inc., for 14 years, he provided technical assistance, commissioning, start-up services and training for commercial and industrial accounts.

Mr. Schell began his career at Green Contracting in 2005 as the Service Manager/Commissioning Agent. In January 2018, due to his exceptional leadership skills, professionalism, and extensive knowledge of all aspects of the industry, Mr. Schell moved into his current position as President, and remains responsible for the companies Top Secret work sector, start-up, and Commissioning services, and executing the operational direction of the General Manager.

Oversight of the Company's Quality Control Assurance Program also falls to Mr. Schell, he ensures that all projects completed by Green Contracting and its subcontractors are performed per Contract requirements as well as Green's comprehensive Quality Control Program.
