Bio - Chris Brooks joined Green Contracting Company in 2019 as a Senior Project Manager. Mr. Brooks' twenty-one years of construction leadership includes Project Management experience for a national design-build mechanical firm, working as an owner's rep for higher education and federal clients, as well as construction management experience.

At Green Contracting, Mr. Brooks directly oversees large scale projects with complex scopes and strict deadlines. His primary management emphasis is on risk identification and management, labor management, dispute resolution, and ensuring compliance with required project standards.

Chris also generates detailed work plans to ensure schedule adherence, proper coordination, and an organized approach to the work. His organization and in-depth understanding of project requirements coupled with his excellent communications skills facilitate seamless installations and improved project results.
